

Jai Dev

AWS re/Start Graduate

I am an experienced Web Developer and DevOps Professional with a passion for web development and cloud computing. I have a strong foundation in both frontend and backend technologies. I am well-versed in cloud computing platforms and use cloud services to create scalable and robust solutions. I am dedicated to lifelong learning and remaining current on industry trends, offering a dynamic and adaptive approach to every project I work on.

EDUCATION

AWS Cloud Practitioner Program AWS re/Start

12/2022 - 03/2023

Bachelor's of Technology in Computer Science and Engineering (Cloud computing and Information Security)

Alakh Prakash Goyal Shimla University

08/2018 - 08/2022

Academic Score

– Percentage - 77%

Shimla

PERSONAL PROJECTS

Alaric (<https://www.alaric.co.in>)

- This web application aims to provide real-time information about the location of buses running in a city and to enable passengers to book and pay for tickets online. It will utilize an embedded system based GPS module installed on each bus to capture and transmit the real-time location data to the server.

Baas (<https://blackbaas.tech>)

- This project is a Backend as a Service (BaaS) that provides a unified interface for integrating different services from various cloud providers such as Google Cloud Platform (GCP), Microsoft Azure, and Amazon Web Services (AWS).

The Mystic Routes (<https://www.themysticroutes.com>)

- *The Mystic Routes* is an experienced travel management company. We work with you to manage all elements of your travel in an efficient, cost-effective. In this project, we used React, Node.js, and MongoDB

3D Rubik's Cube

- In this project we made a web game using the Python and JavaScript

Accessy

- Social Media website using Vanilla Javascript and Firebase

Vaccine Tracking Website

- We made a web application that provide user to check the number of vaccine booking slot available using the government open APIs and AWS
